

A screenshot of a web browser window displaying a login form. The window has a title bar with a small icon on the left and standard minimize, maximize, and close buttons on the right. The main content area has a light gray background. At the top, there is a dark gray rectangular box containing the text "LOGI..." in a large, bold, black serif font. Below this box, the form consists of two labels, "USERNAME" and "PASSWORD", both in a bold, black serif font. The "USERNAME" label is positioned to the left of a white text input field that contains the text "admin". The "PASSWORD" label is positioned to the left of a white text input field that contains seven dots ".....". Below these two input fields is a single, wide, light blue button with a subtle gradient and a thin black border, containing the text "LOGIN" in a bold, black serif font.

A Java Swing dialog box with a standard title bar containing a Java logo, a minimize button, a maximize button, and a close button. The dialog box has a light gray background and a dark gray border. It is divided into two horizontal sections by a thick dark gray line. The top section contains the text **Enter the "Entry Number" of the student** in a bold black font. The bottom section contains a white text input field with a thin gray border. Below the input field are two buttons: a **Delete** button and a **Cancel** button, both with a blue gradient and a thin gray border.

Enter the "Entry Number" of the student
